FAQ

You may not:

- a. Resell, redistribute, provide access to, share or transfer any graphics.
Uploading any graphic to a website at a resolution that exceeds the display resolution of the intended viewing device will be deemed to be an attempt to redistribute the graphic.
- b. Resale the graphics in the form of design resources, such as clip art, vectors, or photo images in both digital and print format;
- c. Distribute the purchased font in any form including with a designed template or logo;
- d. Imply or claim that you are the author of the artwork. If you use the graphics for editorial purposes (print, web or tv) you have to include the credit adjacent to the product:
Mikibith -Art / mikibith.net
- e. Repackage and sell the graphics on it's own or as part of a bundle.
- f. Make graphics available to a third party on a digital asset management system, shared drive or the like for the purposes of sharing or transferring such graphic(s).

* Most of my product sets are packed with many different graphics, so in some instances you will be able to create several different commercial projects from just one set, without needing to purchase an Extended License. But if you would like to use the same graphic within the set for several different commercial projects, then the additional Extended License is required.
